

Cool Returns Rebate Agreement

Logan County Electric Cooperative agrees to pay \$100 to _____

_____, (hereafter referred to as member), residing at

_____, provided the member:

a. Notifies the Cooperative when an electric heat pump or whole house air conditioner unit has been installed in a structure located on the member's property served by the Cooperative; b. that a load management switch has been installed to control the cooling unit during potential summer peak times; and c. that the Cooperative has inspected the installation and confirmed that the radio switch is receiving the signal.

The member understands that: 1) installation costs are their sole responsibility; 2) the Cooperative reserves the right to inspect, repair, or replace the load management switch at any time upon reasonable notice. The member agrees to reimburse the Cooperative a pro-rated portion of the \$100 rebate at any time if;

a) the member discontinues using the heat pump in the structure; or b) the Cooperative discontinues or terminates electric service to the structure; or c) the member tampers with or disconnects the load management switch without authorization from Logan County Electric Cooperative.

The Cooperative agrees to service the load management switch only. Any service related to the normal operation of the heat pump or whole house air conditioner, is the responsibility of the member.
